

Mobile Event App

A Seamless Digital Experience

Give your attendees the same incredible experience across all their devices. Whether attendees are engaging with the event on their laptop or a mobile device, feel confident knowing they are getting a consistent, seamless experience.

No Additional Cost – No, Really.

We care about your time and respect your budget. That's why when you get the Notified platform, we automatically give your attendees access to our mobile app at no additional cost. We don't want you wasting any time searching for a separate mobile app or worrying about additional costs for your event. That's the true definition of an all-in-one platform.

Notified's mobile event app helps you:

- Save time by building a personalized schedule reflecting both in-person and online meetings.
- Increase app opt-in by simply sending attendees a single URL to instantly download our app.
- Drive networking with attendee and speaker profiles that include the ability to schedule in-person or online meetings with a few taps.
- Easily gather the essential evaluation feedback you need to take your event to the next level.
- Boost engagement by offering attendees gamification activities.
- Facilitate networking with live chat between attendees and sponsors.
- Confidently ensure important announcements are seen by all attendees with in-app and push notifications.
- Allow attendees to consume content at any time during or after your event—whether they are on the show floor, at the hotel room, or at home.

Notified Event Cloud

Powering Meaningful Connections

Made by event planners, for event planners

We get it. We know how hard you work, because we've been there. Notified wants help you do your job even better, while leaving room to go home to your friends or family at the end of the day.

About Notified

Notified is the world's only communications cloud for events, public relations, and investor relations to drive meaningful insights and outcomes.

Notified Event Cloud lets you create unforgettable experiences to build brand and community engagement. It's the world's most comprehensive end-to-end event technology and related services to power the creation and management of events.

Notified PR Cloud helps you optimize brand value, increase earned media, and drive meaningful business impact. Reach global audiences, monitor brand sentiment, send GlobeNewswire press releases, and measure success.

Notified IR Cloud lets you manage stakeholder communications and regulatory requirements to maximize shareholder value. Tell your investment story with high-impact, multichannel solutions – earnings announcements, press releases, webcasting, virtual events, and IR websites.
